Barron s Educational Series Inc.,U.S., United States, 2008. Paperback. Book Condition: New. 4th Revised edition. 226 x 150 mm. Language: English . Brand New Book. Professor Richard Sandhusen s brand-new and important fourth edition of Marketing explains how four digital-age systems have merged into one to change marketing and management practice as much in the past five years as in the previous half century. These systems-- decision support, relationship marketing, integrated marketing communication, and balanced scorecard-- receive detailed analysis in this extensively updated book, which also gives more comprehensive coverage to all aspects of the global marketplace than other currently-available textbooks on the subject. Here is vital information for students soon entering business in today s ever more globally competitive world. Marketing presents a realistic hypothetical company as it faces business challenges and opportunities on a day-by-day basis. Although solidly grounded in marketing theory, the book explains marketing strategies within this realistic setting, showing many of the business tactics and decisions students are likely to confront in their own careers. The fictitious company s domestic and international marketing strategies are explained and analyzed, and real-world examples of successful marketing campaigns by different kinds of companies are also included. Each chapter ends with an overview of essential concepts and match-up exercises that review the text s material. Here is a popular and accessible new addition to Barron s respected Business Review Series.
