Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Janitor and Janitor Engineer The examination for Janitor, Janitor-Engineer and Janitor with knowledge of steam heating is one of the most popular tests given for city positions. One reason for this is that the eligible list is active. In other words, there are many appointments and most lists are exhausted before the end of four years, the time a list is permitted to run. The work is steady and the pay is good, two things that mean much to the average man, who has to depend on his daily wage for the support of himself and family. Then too, the position of Janitor in the city service is very different to the same position in outside employment, such as apartments or private offices. Under civil service the position is one of considerable responsibility, and commands respect where the Janitor shows himself worthy of it. The fact that the examination is popular makes it necessary for the man who wants to stand well on the list to learn all he can about the practical duties, and the knowledge required to perform them satisfactorily. Every scrap of information that will tend to give him a better understanding of a city janitor s work is valuable and ought to be studied well. Applications for the position are given out at Room 1119, 299 Broadway, but they can not be had until a date is set for the examination, which is promptly printed in The Chief. In the examination for Janitor Engineer and Stationary Engineer, held December, 1907, the subjects and weights were: Technical, 6; Experience, 3; Mathematics, 1. The minimum age was 21 years, and the salary \$750...
