

A Theory of Partial Sales and Underpricing in Privatizations: April 1991 (Classic Reprint)

Filesize: 2 MB

Reviews

Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.Excerpt from A Theory of Partial Sales and Underpricing in Privatizations: April 1991 This paper develops a theory of gradual sales and underpricing of shares in privatizations. Gradual sales and underpricing are strategic devices used by policymakers to signal commitment when the capital markets are unsure about the governments type and attempt to infer it from observed performance. The model establishes for which firms the use of underpricing is optimal. Further, in the context of a multiple firm model, the question of when gradual sales can be abandoned is analyzed. 1 Introduction Among other things, the Eighties will be remembered as the decade of privatization: the selling of state assets is taking place at the same time almost everywhere. Perhaps surprisingly, most privatization programs seem to display important similarities. It is, for instance, true that, during the initial stages of the program, governments frequently use partial sales. Although a number of reasons has been offered, ranging from seller inexperience to stock-market liquidity constraints, none of these provides a completely satisfactory explanation. Also, it has been reported that the underpricing of shares in privatizations is significantly and consistently larger than the average underpricing occurring in the private sector initial public offers. Jenkinson and Mayer (1988), measuring discounts of issue price in relation to offer prices at the end of the first trading day, note that only 5 out of 23 of the discounts in privatizations in France and the U.K. were in single figures, which are consistent with the underpricing in private IPOs for the two countries. This is particularly intriguing because state owned corporations are usually well known to the public, and the government, unlike shareholders of...
