Finalist for the ForeWord Magazine Book of the Year Award (Gay/Lesbian Fiction) Shortlisted for the ReLit Award for Best Novel The first novel by George K. When distressed, Sebastian tended to express conflict. A blurt of truth might escape his lips before he could help himself. This could be, for example, while compiling mortality data, or tweaking a statistical analysis of residual contamination by increasing the sample size. Smoothing the result, it was called. Smoothing the rough edges of truth: the research facility, through a shift in perspective, became a factory generating statistics. They virtually manufactured data, based on demand. Statisticians called the data massage, increasing the sample size. Managers called it, broadening the research horizon. Sebastian called it, diluting the evidence. Diluting it until the answer came back, no detectable residue....
