CORK PROGRAM

Hippocampus-Verlag Mai 2013, 2013. Taschenbuch. Book Condition: Neu. 198x146x5 mm. Neuware - Functional hand disorders are counted among the most common consequences of acquired brain damage. In everyday life, impairments of fine motor skills mainly occur during activities such as gripping, manipulating and transporting objects. This exercise program allows an intensive, home-based training of the patient's affected hand in order to improve hand function. The exercises presented in this book activate all important structures of the hand; elbow and shoulder...

Reviews

This is the very best ebook i have got study until now. This is for those who statte there had not been a worth reading. You can expect to like the way the writer write this book.

-- **Jeffrey Ritchie**

Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.
